# Project Status report

| | |
|---|---|
| Name: | Cameron Wilson |
| Community (UN SD goal): | Good Health and Responsible Consumption |
| MVP # | 1 |
| Sprint cycle dates: | October 19th to November 2nd 2023 |

| | |
|---|---|
| **Project Name** | Eating Habit Analyzer |
| **Blurb** | I am creating an application that helps users track their calorie intake to ensure they are responsibly consuming food and staying in good health. |
| **For Week Ending** | November 2nd, 2023 |
| **Project Status** | Yellow |
| **Status Description** | Yellow as the UI is not in a great state, and neither is the functionality included in MVP #1. |

## Activities—During the past sprint cycle

Created DB environment, API hosting environment and starting MAUI code. Have a relatively simple API being used for developing the front end.

## Project Issues

MAUI has been a lot more of a slowdown than originally thought however this is primarily due to my own errors.
Security has taken a backseat for a portion of this project and needs to be brought back to the forefront.

## Project Changes

No changes currently.

## Activities—Planned for Next Week

Complete the logging of calories.
Completion of registration and goal setting functionality before November 7th (date pulled for Activity-based schedule)
Creation of the group functionality November 7th to next scrum
Cleanup the UI a bit.

## Reflection

Do you feel "on track"?
- No, I feel that I am behind, and more work needs to be put in to catch up

What progress do you particularly feel good (great) about?
- Having an environment is nice and something that is working but its very rough

What barriers (if any) do you feel is/are a current impediment to success?
- Time is the biggest barrier; time allotment needs to be changed to allow a better balance.

What help (if any) do you require to move positively forward?
- I believe my problems are not something that can be helped with outside influence within reason and must come internally.

What questions or concerns do you have (if any)?
- N/A
